CENTRE FOR SUSTAINABLE DEVELOPMENT GOALS

(நிலையான வளர்ச்சி இலக்குகள் மையம்)

The Sustainable Development Goals (SDG) Cell of Trinity College for Women, Namakkal, was established to promote awareness, action, and accountability towards the United Nations Sustainable Development Goals (SDGs). The SDG Cell serves as a dedicated institutional platform to integrate sustainability principles into academics, research, extension activities, and campus practices, in alignment with national priorities and global development agendas.

The SDG Cell aims to foster social responsibility, environmental stewardship, and inclusive growth by encouraging interdisciplinary learning, community engagement, and student participation. Through structured programs, research initiatives, outreach activities, and partnerships, the Cell works to sensitize students and faculty to global challenges such as climate change, health and well-being, quality education, gender equality, and sustainable livelihoods.

The campus is envisioned as a living laboratory, where sustainable practices are implemented, monitored, and continuously improved with active student involvement.

The 17 Sustainable Development Goals of the United Nations (UN) are a roadmap for sustainable global development.

These are
