Apply AI insights for targeting, customer journey	Evaluate interpretation of segmentation models, sentiment outputs,	Uses AI-generated insights to refine targeting and map customer journey	Create a predictive segmentation dashboard using AI insights
mapping, and data-driven decisions	and predictive analytics	touchpoints	
Create AI-optimized content based on semantic search logic	Assess ability to use AI keyword tools, semantic clustering, and NLP optimization	Produces semantically optimized content using AI-driven search patterns	Optimize a blog using AI semantic keyword recommendations

Create automated workflows and personalized communication using AI tools	Evaluate ability to design chatbot flows, email automations, and personalization triggers	Builds functional multi-step AI automations demonstrating sequencing and personalization	Develop a 3-step personalized onboarding workflow using AI
Construct comprehensive AI-enabled marketing campaigns with measurable KPIs	Appraise the learner's ability to integrate AI tools, justify channel strategies, and map measurable KPIs (reach, engagement, conversions, ROI) to a multi-stage marketing campaign.	Synthesizes a full-funnel AI-enabled campaign incorporating channel alignment, clearly defined KPI frameworks for optimization.	Design an AI-powered, cross-platform digital marketing campaign for launching a new product—include AI-generated content assets, predictive audience targeting, automation triggers, and KPI dashboards for performance tracking.

TABLE 4: LIST OF FINAL PROJECTS (PROJECTS THAT COMPREHENSIVELY COVER ALL THE LEARNING OUTCOME)	
SL.NO	FINAL PROJECT
1	Create an AI-Powered 7-Day Social Media Campaign Plan and execute a weeklong social media campaign using AI tools for scheduling, trend analysis, and content generation. Optimize engagement through predictive analytics and automation.
2	Build an AI-Assisted Landing Page with SEO-Optimized Content Use AI copywriting and design platforms to create a responsive landing page with keyword-optimized content. Improve visibility and conversions through SEO-driven insights.
3	Develop a Predictive Customer Segmentation Model Apply machine learning algorithms to segment customers based on behaviours and preferences. Predict future buying patterns for targeted marketing campaigns.
4	Execute an Email Automation Funnel Design an automated email marketing sequence using AI for personalization and performance tracking. Measure open rates and optimize for higher conversion.
5	Conduct an AI-Driven Competitor Analysis Use AI tools to monitor competitors' digital strategies, keyword usage, and ad performance. Identify gaps and opportunities for brand differentiation.
6	Design a Chatbot Conversation Flow Create an intelligent chatbot script using NLP models for customer engagement. Optimize tone, responses, and user experience through testing and iteration.
7	Create an AI-Based Content Calendar Generate a data-driven editorial plan using AI to predict high-engagement content topics. Automatically suggest posting times and formats across channels.
8	Build an AI Marketing Analytics Dashboard Integrate multiple data sources into an interactive dashboard using AI visualization tools. Track campaign performance, ROI, and audience insights in

	real time.
9	Generate a Visual Brand Kit Using AI Employ AI design tools to create a cohesive brand identity including logos, color palettes, and fonts. Ensure visual consistency across marketing assets.
10	Pitch an AI-Enabled Digital Strategy Develop and present a strategic proposal that integrates AI into various marketing functions. Highlight automation, personalization, and data intelligence benefits.
11	Create an AI-Optimized LinkedIn Strategy Leverage AI analytics to enhance LinkedIn content performance, audience targeting, and outreach. Build professional visibility using personalized engagement tactics.
12	Build a Customer Persona Matrix with AI Use data-driven insights from AI to map detailed customer personas. Visualize demographic, psychographic, and behavioural traits for better campaign alignment.
13	Design an AI-Enhanced Product Launch Funnel Construct a multi-stage automated marketing funnel for product launch. Use AI to forecast audience response and personalize messaging across platforms.
14	Produce an AI-Generated Short Video Series (Theme Based) Create a branded video series using AI video generation and editing tools. Automate scripting, visuals, and subtitles for social media optimization.
15	Create an AI-Assisted Local SEO Strategy Use AI tools to enhance local search visibility through keyword mapping, content generation, and geo-targeted optimizations. Track results via performance analytics.
16	Develop an AI-Based Crisis Communication Plan Design an AI-supported system for monitoring brand reputation and managing crises in real time. Use predictive sentiment analysis for proactive response.

17	Conduct Market Research + AI NLP Insight Analysis Gather market data and use Natural Language Processing to uncover audience sentiment and emerging trends. Summarize actionable insights for strategic decision-making.
18	Perform Email A/B Testing Simulation Utilize AI to simulate and analyze variations of email campaigns. Determine optimal subject lines, content, and visuals through predictive performance modeling.
19	Create a Nonprofit Awareness Campaign with AI Use AI tools to design a social awareness campaign that maximizes reach and emotional resonance. Optimize targeting and storytelling for donor engagement.
20	Design a “Responsible AI” Video Create an AI-powered video that features student as part of the narrative while promoting ethical, mindful, and balanced use of technology. Incorporate AI-generated visuals, insights, and analytics to highlight the importance of responsible digital behavior and encourage informed, safe, and accountable use of AI tools.

TABLE 5: COURSE ASSESSMENT RUBRICS (TOTAL MARKS: 75)					
ASSESSMENT CRITERIA	Learning Outcome	Fair (1-5)	Good (6-10)	Excellent (11-15)	TOTAL MARKS
Evaluate ability to identify AI components, explain workflows, and interpret AI-driven outputs	Interpret the role of AI in transforming marketing workflows and decision-making	Basic explanation with limited clarity	Clear explanation with moderate interpretation	Comprehensive interpretation with strong workflow analysis	10

Assess ability to generate text, images, and videos using AI and align output with brand tone	Design brand-aligned content using AI tools with coherence and creativity	Basic AI content with weak branding	Coherent content aligned to brand tone	Highly creative, multi-format, brand-consistent AI content	10
Evaluate interpretation of segmentation models, sentiment outputs, and predictive analytics	Apply AI insights for targeting, customer journey mapping, and data-driven decisions	Identifies insights with limited application	Applies insights with basic journey mapping	Strategic application with full customer journey optimization	10
Assess ability to use AI keyword tools, semantic clustering, and NLP optimization	Create AI-optimized content based on semantic search logic	Limited semantic relevance	Moderate optimization with structured keywords	Highly optimized semantic, NLP-enhanced content	15
Evaluate ability to design chatbot flows, email automations, and personalization triggers	Create automated workflows and personalized communication using AI tools	Basic workflow with limited personalization	Functional automation with moderate personalization	Advanced automation integrating AI triggers & adaptive personalization	15
Appraise the learner's ability to integrate AI tools, justify	Construct comprehensive AI-enabled marketing campaigns	Campaign lacks structure or metrics	Structured campaign with basic KPIs	Strategic AI-driven campaign with strong KPI mapping	15
