The focus of the conference is to highlight the significance of scientific innovations of our society. The Resource persons emphasized and enlightened scientific inventions and discoveries paved the way for the development of humanity and not for the destruction nature. They encourage and insist on young women Research aspirants should do research in Tamil and in their mother tongue. New young scientists should find a scientific technique to eliminate global- warming.

One third of our population is getting good drinking water. 80% of Electricity is derived from coal. This causes environmental pollution instead, we generate electricity from solar and wind power which enables us to get fulfillment without pollution.

They illuminated how different types of waste (ex) Electronic waste, medical waste and plastic wastes are spoiling our environment. They also insist that every one of us is responsible for perfecting our environment.

More than 100 researchers submitted their articles through power point presentation and poster presentation on the topics of Electricals, Electronics, Biology, Bio-chemistry, Bio-technology, Bio-Physics, Astronomy, Agriculture, Organic Chemistry, Inorganic Chemistry, Analytical Chemistry, Industrial Chemistry, Health Care, Medicine, Etc.,
