## GREEN CAMPUS INITIATIVES POLICY

Trinity College for Women (Arts & Science) is a quality as well safety conscious college for Women. It protects its own environment with its green campus initiatives and maintains a pollution free green and clean campus. Environment growth is its basic notion with the educational policies implemented on the campus.

## INSTITUTIONAL INITIATIVES

The institution is committed to managing its campus in accordance with responsibilities towards promoting a sustainable environment. These responsibilities can be demonstrated within the following areas:

- ❖ Green Environment and Clean Campus
- ❖ Solid Waste Management
- ❖ E-Waste Management
- ❖ Water Conservation Management
- ❖ Restricted Entry of Automobiles
- ❖ Use of Bicycles
- ❖ Ban on Single-use Plastics on the Campus
- ❖ Display Boards on College Campus
- ❖ Green Audit

## Green Environment and Clean Campus

Green and Clean are the two eyes of Trinity. The students are given strict instructions to maintain the campus clean (Trinity Green & Clean- TGC Policy) and it is reflected in their handbooks. Several Quotes related to the importance of a clean and green environment are displayed on the campus. A Gardener and full time adequate support staff are appointed for the maintenance of litter free Clean and Green Campus.

## Solid Waste Management

The college pays dedicated focus to see that minimal waste is generated in the campus. Solid waste is segregated as bio degradable and non-degradable. It is a part of Swachh Bharat initiative. All Department and Classrooms are provided with dustbins for dry wastage disposal. Segregation of waste into dry and wet waste from the separately allotted dustbins is done in strategic locations, thus maintaining the Campus clean and Eco-friendly.

## E-Waste Management

Electronic conquers every institution and Trinity is not an exception. With the proliferation of electronics also comes the challenge of their proper disposal. The college is grappling with ways to efficiently and cost-effectively handle the issue of electronic waste or e-waste on campus. The college adopts most scientific and eco-friendly e-waste disposal mechanisms such as The Cartridges of printers are refilled outside the college campus, UPS Batteries are recharged and repaired by the suppliers, a suitable budget is allocated to upgrade the systems.

## Water Conservation management

Next to air, water is the most significant element for the preservation of life. Water is a finite commodity which, if not managed properly, will result in shortages in the near future. Students are made aware that conserving water is equivalent to conserving their future. Drinking water from the tap and refilling the bottle as often as the students' need are the essential practices in Trinity. The college has installed a rainwater harvesting mechanism, because the college realizes the value of every drop of water and saves the rain water strategically for future use. The rain water is accumulated and deposited for reuse. Even the ground water is directed towards the plants.

## Restricted Entry of Automobiles

The College operates a fleet of 52 buses covering all the places to make safe and secure for the students and staff. The institute encourages the staff and students to use the college transport instead of their own vehicles for safety, security, fuel conservation and to reduce environmental pollution. The college buses are checked for pollution by the authorized agency. The security measures are mandatory for two wheelers or four wheelers.

## Use of Bicycles

Students and staff coming from nearby villages also prefer bicycles as a mode of transport for attending the college. It helps to prevent pollution and to be environmentally friendly.

## Ban on Single-Use Plastics on the Campus

Trinity Campus has been constantly adopting practices and revising its policies towards a cleaner and plastic-free campus. The institution through its Eco-Green club, NSS, YRC conducts sensitization programs on the harmful single-use plastics and mandates all the students to avoid bringing non-bio-degradable plastic items to the institution, which include plastic bags, cups, plates, straws etc. The institution facilitates environmentally friendly substitutes like stainless steel, washable and reusable glasses at all water units and mandates the canteen to serve only in paper plates and paper cups to systematically ban the use of plastics on the campus.

## Display Boards on College Campus

Various boards that promote environmental awareness and ethics- noise control, conservation of energy, recycling of resources, tree plantation etc., are displayed for all inside the campus.

## Green Audit

Trinity College committed to create an environment of educational excellence adopts the 'Green Campus' system for environmental conservation and sustainability. The College conducts Green Audit periodically to identify, quantify, describe, and priorities a framework of Environment Sustainability in compliance with the applicable regulations, policies and standards.

These strategies are incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. The institution is committed to make necessary efforts to involve the students, faculty and all in "Green Campus initiatives" by designating volunteers, circulars, and announcements during prayers, notice boards with green campus initiative slogan like "Green Trinity! Clean Trinity!" "Save Trinity! Serve Trinity!" "Green is the Crown of Trinity" etc. Specially designed for the purpose.

## GREEN AUDIT:

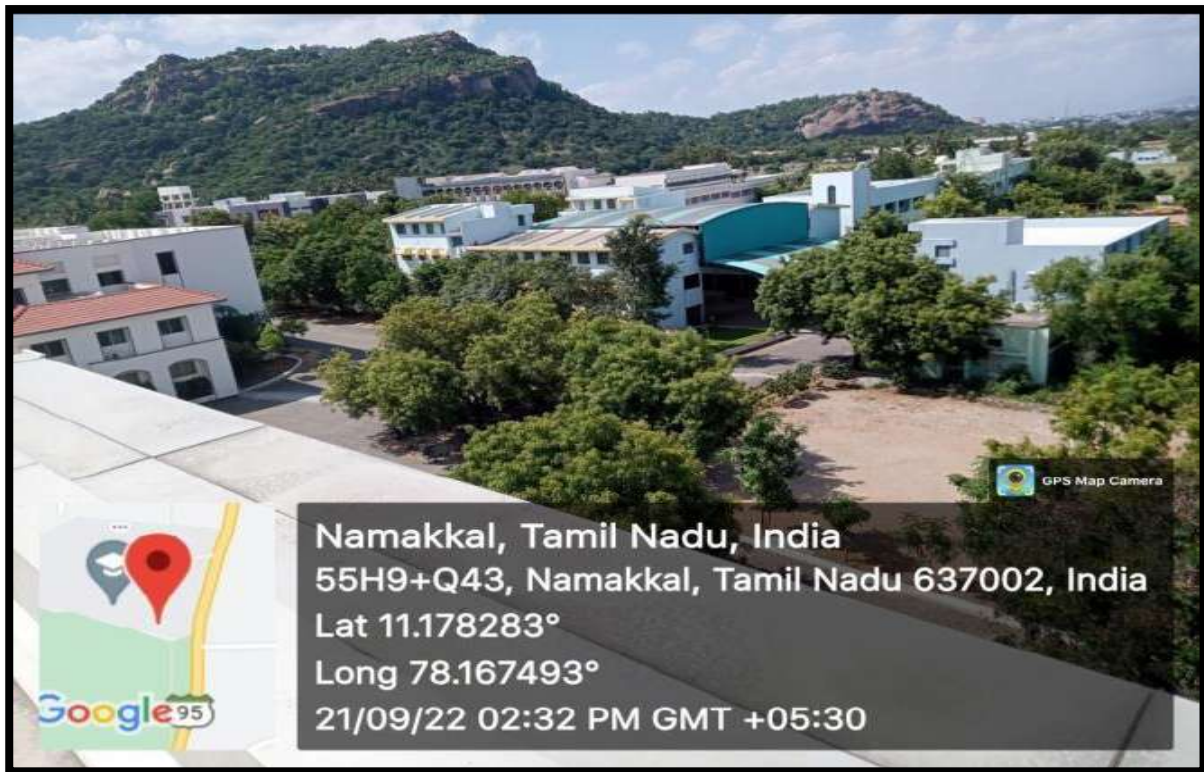

The Growth and Development of every Educational Institution determines environmental factors and eco-friendly concepts. Our campus is surrounded with a green, clean and pollution free environment. It is situated near the hill “Sanniyasikaradu” (Saint hill). To protect and maintain the green campus, our institute keeps an eye on the better environment. Environment is the eyeball of our institution. We mainly focus on the protection of banning plastics, energy saving, recycling of waste, water saving, rain water harvesting, controlling pollution etc... These activities can also create a variety of environmental powers.

A variety of medicinal plants have been planted inside the college campus to take care of the students and faculty. All the department students and staff members are voluntarily involved in Green practices. Eco Green club, NSS, YRC, RRC and other environmental related clubs often conduct various awareness programmes on protecting the environment and plastic free zone. Green audit is meant to be an official scrutiny of the effects on the environment. Our institute instructs and monitors the faculty to be economical in consumption of diesel, petrol, LPG, Power, Water and Wood by which they can strengthen the eco-friendly environment in the campus.

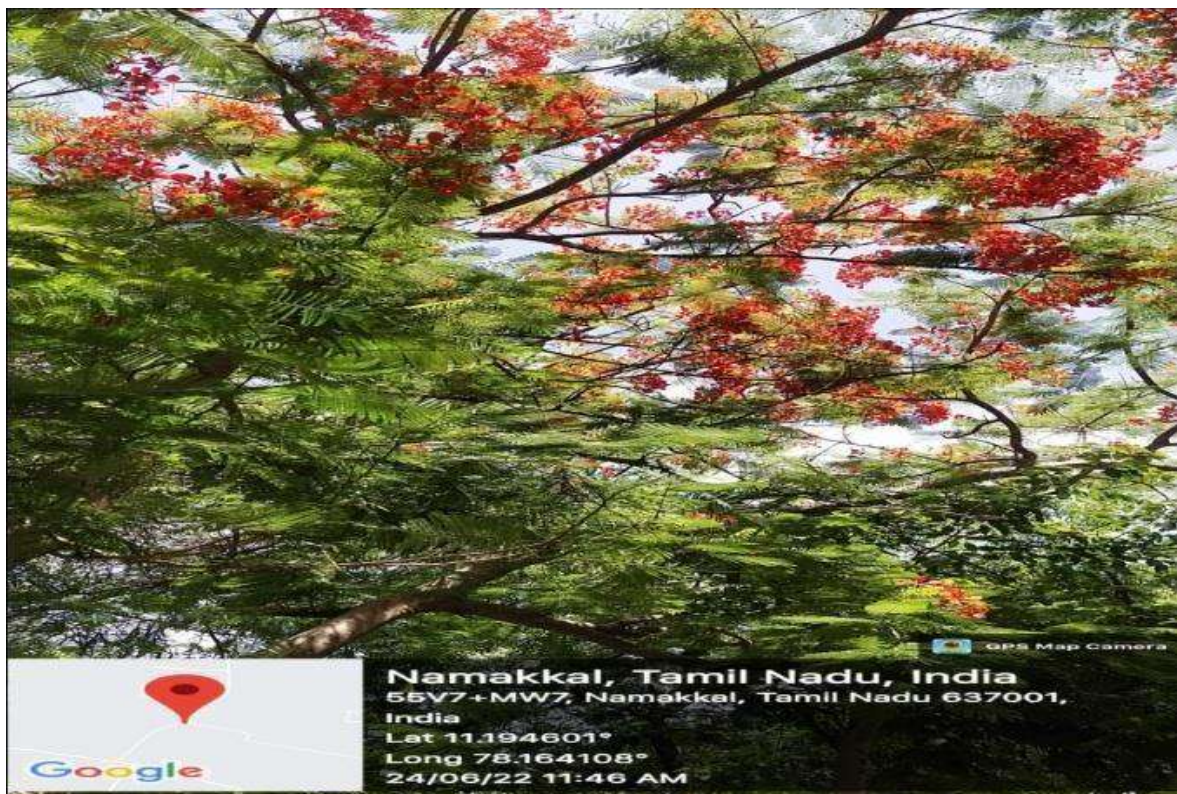

“Green Campus is an ornament of Trinity”
