### **Innovations: The Essence for Employability**

Today, the job market is more competitive in an altogether different sense. Along with subject matter expertise, employers are now looking for employability skills as essential traits in their potential employees. While it was easier for IT professionals to land jobs - thanks to the mushrooming start-ups many of them are now finding it difficult to keep their employment or thrive in their roles.

One reason for this is the ever-changing nature of technology. Technology is evolving every day, and if you are unable to up skill to stay relevant in your industry, you will inevitably fall behind your peers. Another reason that many are experiencing difficulty successfully launching their careers is that employers are now stressing the importance of "employability skills" - skills that go beyond qualifications and experience.

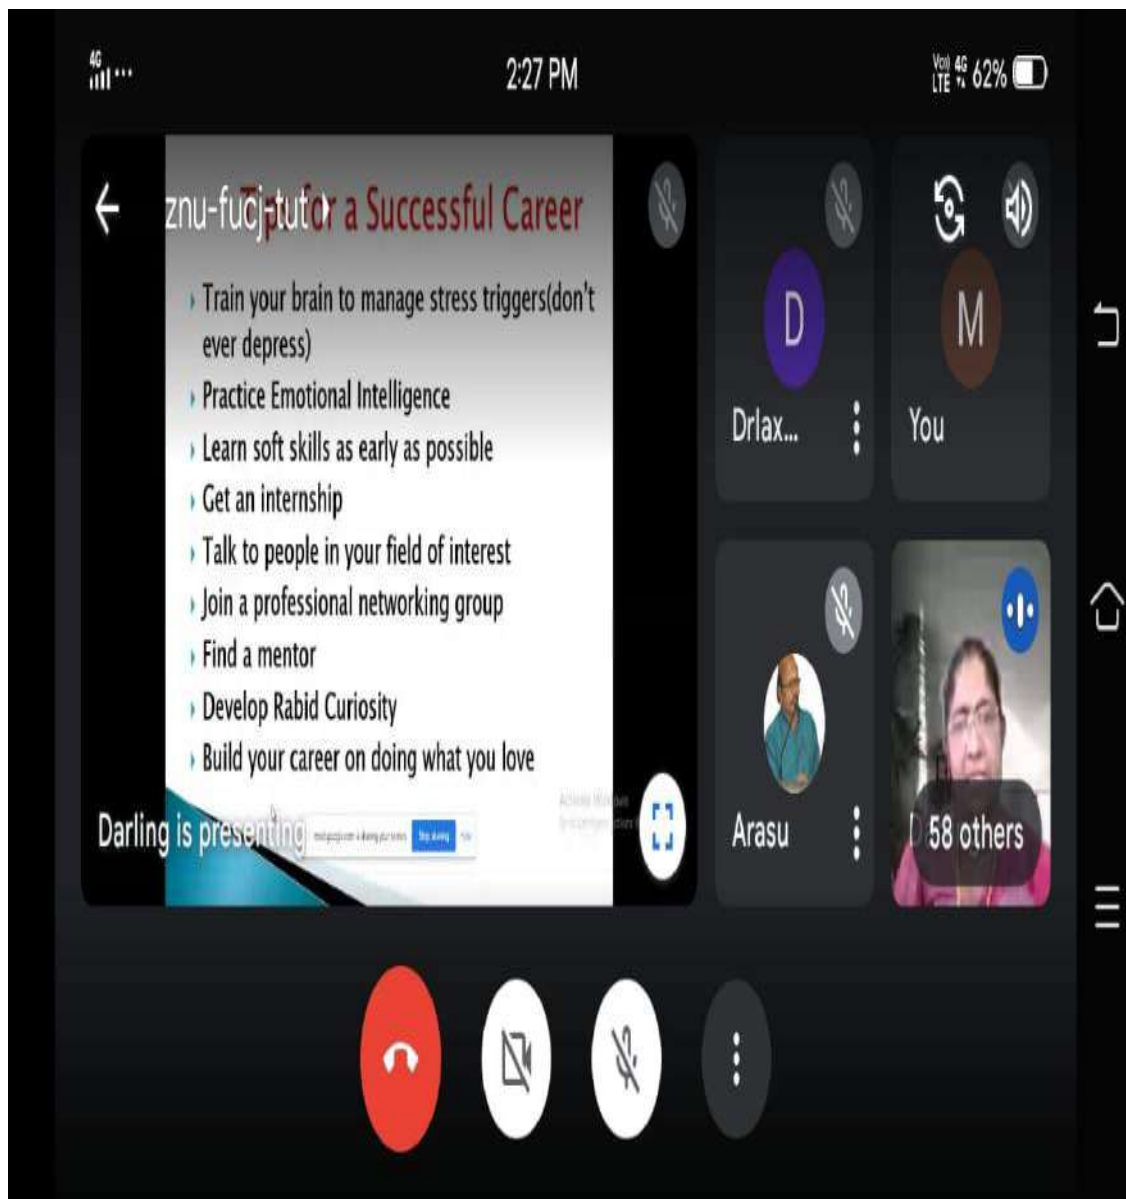

In this regard, Dr. V. Darling Selvi, Assistant Professor in Commerce, Rani Anna Government Arts College for Women, Tirunelveli was the resource person. Apart from that she explained the various sub topic of Employability.

Mrs. P. Sumathi, Assistant Professor and Head, Department of Physics welcomed the gathering. Dr. R. Malarvizhi, Assistant Professor and Head, Department of Mathematics addressed the introduction of chief guest and Mrs. S. Jayanthi, Assistant Professor, Department of Mathematics delivered the vote of thanks.

The faculty members of our college were present. More than 90 students took part in that webinar programme.
