Happy Teacher's Day

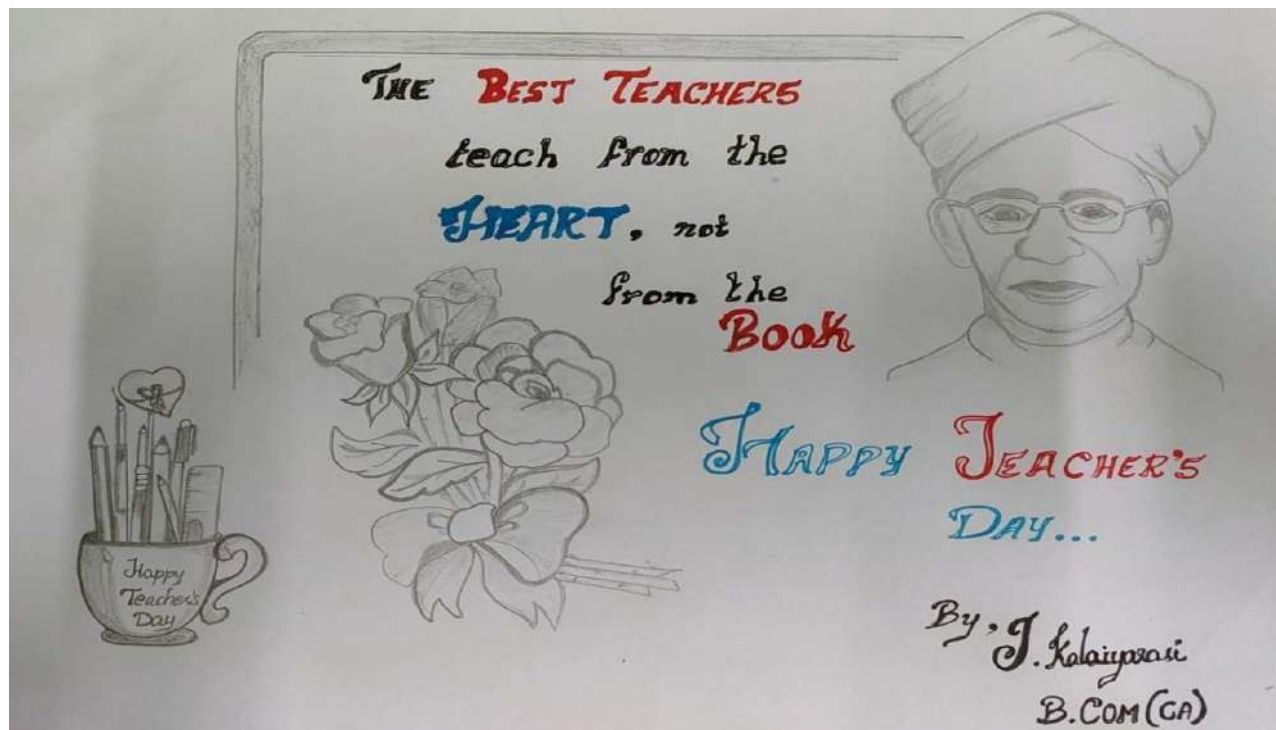

Every day you greet your students with a smile upon your face. Though paperwork the night before seemed like a grueling race.

Money's not your motivation, it's the love for what you do. You hear that special calling to which you always will stray. Your students are your dedication, devotion & to them, to you each child's unique and special, a beautiful little gem. Some days are just demanding and frustration takes its course. Then you see those little faces, their inspiration & your force. Each day you're in your classroom reminds you why you're there. Making differences in children's lives with whom your heart you share. There's a special pride in teachers and a love for what you do. And appreciation's always shared between those little lives and you!

WHY GOD MADE TEACHERS

When God created teachers,
He gave us special friends
To help us understand His world
And truly comprehend
The beauty and the wonder
OF everything we see,
And become a better person
With each discovery.

HAPPY
TEACHER'S
DAY

When God created teachers,
He gave us special guides
To show us ways in which to grow
So we can all decide
How to live and how to do
What's right instead of wrong,
To lead us so that we can lead
And learn how to be strong.

Why God created teachers,
In His wisdom and His grace,

We place our feet where they have never

we walk upon the unwashed. But we are

no who is down there but our old teachers

Looser that once could shake no human

we were students then holds up our

And goes on ahead of us for a mile,

Beneath us the teachers, and around us the

The New Education Policy (NEP 2020) contributes to growth and drives the education needs and requirements of our youth and younger population in India. We have 3.74 Crores Students are registered in 51,649 institutions with a GER (Gross Enrollment Ratio) of 26.3. In accordance with the MHRD (Ministry of Human Resource Development) 2018-19 report 91 lakhs students graduate per year. NEP 2020 targets to raise the Gross Enrolment Ratio (GER) in higher education including vocational curriculum from 26.3% (2018) to 50% by 2035. 3.5 Crore new seats will be enhanced to Higher education institutions.

On this subject, National Service Scheme, Youth Red Cross and Red Ribbon Club of Trinity College for Women (Arts and Science), Namakkal, Tamil Nadu state has organized a oneday webinar entitled “Traditions of Tamilians and New EducationPolicy”

“(தமிழ் நாட்டார் வழக்காறுகளும், புதிய கல்விக் கொள்கையும்” என்றத் தலைப்பிலான வலையரங்கம்”) on 09th November 2020.

This event was held through the Google Meet of video conferencing.

In this regard, Dr. D. Umadevi, Associate Professor, Department of Modern Indian Languages and Literary Studies (MIL & LS), University of Delhi, Chhatra Marg, University Enclave, New Delhi – 110 007 was the invited speaker.

The best part and role of Tamil society is that the local people are deeply rooted in their traditions and culture. They have preserved their traditions extremely very well. Even the youth and younger population are attached to their traditions and religion. Especially, our Tamil Culture is one of the oldest and richest cultures; it has a prolonged shaped history and an ancient heritage. There are many festivals and celebrations which happen in Tamil Nadu state each year. However, this traditional culture is now being impacted by westernization and every single thing is gradually changing and is becoming western, she denoted it.

Apart from that she indicated the positives and favor of new education policy-2020. These are:

1. The New Educational Policy supports the students to upgrade their multilingual knowledge by learning many other languages like Hindi, Sanskrit, Telugu, Marathi,

Bengali, Gujarati, Punjabi, Kannada, Malayalam, etc., beside that their mother language (Tamil) and English

2. This policy will also prolong its helping hand towards the students to procure their certificates at the end of each and every year in the due course of their graduation period of either 3 years or 4 years.
3. By means of excess allotment of funds from our Central Government for online education, research & development, innovative pedagogy and education, SWAYAM, etc., it widely and largely helps the students to upgrade their skills.
4. The New Education Policy highlights more importance for Professional Courses like Physical Education, Law, Agriculture, Medicine, and like this.
5. Apart from these, The New Education Policy also facilitates the adults to pursue the education which indeed results in higher literacy rate
6. The motivation and encouragement of the Staff Development Programme and formation of PARAKH (Performance, Assessment, Review and Analysis of Knowledge for Holistic Development) will enlarge the standard and grade of Education.
7. By giving Autonomous/University status to the educational institutions, it paves the way for various innovative ideas and new technologies.
8. As this policy proposes and plans the uniform education standard and courses of study throughout the nation, the students can continue their studies wherever they go.
9. The new education policy tends to provide a kick at the cat of new employment and several new entrepreneurship to start their own venture.
10. The memorization of subjects will be substituted for knowledge oriented curriculum.
11. De facto, the Government of India will provide additional funds to State Governments for this new education system.
12. Establishment of professional Standard Setting Bodies start an undertaking for the educational institutions to guide the students in a certain way so that it can meet the needs and fulfill the Business Firms who are the job providers.

Dr. M.R. Lakshiminarayanan, Principal of the College welcomed the gathering. The Chief Guest was introduced by Dr. Arasuparameswaran, Director – Academic of the College. Mr. P.K. OBSERVANCE OF NATIONAL POLLUTION CONTROL DAY

02-12-2020

The National Pollution control day is observed on the 2nd of December in our country. The aim behind the observance of this day is to become aware of the everyday acts that have resulted in the surge of pollution so that we can try to decrease them.

The National Pollution Control Day is also observed in the remembrance of the people who lost their lives in the Bhopal (capital city of Madhya Pradesh) gas calamity in 1984. Many innocent individuals lost their lives on the night of 2nd December in 1984, as a consequence of the MIC (Methyl Isocyanate) gas which is poisonous. The 1984 tragedy is one of the most horrific industrial pollution disasters in India. From this subject, our Trinity College for Women (Arts and Science), Namakkal observed a National Pollution Control Day on 2nd December 2020.

Dr. Arasuparameswaran, Director – Academic, Trinity College for Women spoke on the topic of “Need for pollution control for our society” on 2nd December 2020. This event was held through the video conferencing of Google Meet.

Dr. Arasuparameswaran explained the shortcomings of pollution like, air, light, litter, noise, plastic, soil, visual, water. Thermal, radioactive contamination, etc.,

More than 80 students took part in that webinar.

This programme was organized by Youth Red Cross, National Service Scheme and Red Ribbon Club. Mrs. S. Jayamathi, NSS Programme Officer (Unit 2) welcomed the gathering. Dr. M. Sasikala, NSS Programme Officer (Unit 1) proposed the vote of thanks.

REALITIES, CAUSES AND EFFECTS OF DEFORESTATION

26-12-2020

Our College National Service Scheme, Youth Red Cross, Red Ribbon Club and Eco Green Club jointly organized a one day webinar event entitled “ (SWACHH BHARAT MISSION) Realities, Causes and Effects of Deforestation” (காடுகள் அழிப்பு - உண்மைகள், காரணங்கள் & விளைவுகள்) on 26th December 2020 (Saturday) at 11 A.M. through the Google Meet.

Approximately, 3000 B.C almost 80% of India was forested. India's forests now cover more or less 25% of the country. About 60 of the population are employed in agriculture. Increasing population, widespread poverty, restricted employment opportunities in the agricultural and industrial sector has resulted in heavy pressure on forests, because of unsustainable extraction of fuel wood and overgrazing resulting in forest degradation, he spoke. For the purpose of human beings welfare, trees are continuously cut down and burned to rot. Due to this stored carbon is released into the air as carbon dioxide. Deforestation and forest degradation contribute to global warming, he pointed out.

Dr M R Lakshiminarayanan, Principal of the College delivered the welcome speech. Mr. P.K. Sengodan, Chairman and Er. K. Nallusamy, Secretary offered their felicitation address. Dr. Arasuparameswaran, Director - Academic proposed the vote of thanks. Mr. N.S. Senthilkumar, Programme Officer, Red Ribbon Club, Dr. R. PARTICIPATORY RURAL APPRAISAL ASSESSMENT - SELECTED NSS PROGRAMME OFFICERS

Participatory Rural Appraisal is an assessment and learning process that empowers farmers to create the information base they need for participatory planning and action. It is an approach used by Non-Governmental Organizations and other agencies involved in International development. The approach aims to incorporate the knowledge and opinions of rural people in the planning and management of development projects and programmes. Outsiders contribute facilitation skills and external information and opinions. Many different tools have been developed for use in PRA. There are four main classes: tools used in group and team dynamics; tools for sampling; options for interviews and dialogue; and options for visualisation and preparing diagrams.

In this regard, the Department of Rural Development, Namakkal District, Tamil Nadu state selected the two villages namely Vagurampatti (Namakkal Panchayat Union) and Thottiyavalasu (Vennandur Panchayat Union).

CELEBRATION OF WATER DAY

22-03-2021

On 22nd March 2021, National Service Scheme, Youth Red Cross and Red Ribbon Club of Trinity College for Women (Arts and Science), Namakkal celebrated World Water Day. Ms. A. Keertha, student of II M.A., Tamil welcomed the gathering. Dr. M.R. Lakshminarayanan, Principal gave an introduction about world water day and highlighted the importance of water management in the country. Dr. Arasuparameswaran, Director – Academic focused on the shortcomings of global warming, environmental pollution, usage of plastics and scarcity of water resources. Water is a critical input for agriculture production and plays an important role in food security. We have to save our rain water for multiple purposes, Mr. P.K. Sengodan, Chairman, spoke. India is degraded due to the need for quality water. Over and above, 50% of the population has no access to safe drinking water and about 2 lakh people die by the year for lack of access to safe water, Er. K. Nallusamy, Secretary of the College quoted in his speech.

The NITI (National Institution for Transforming India) Aayog's Composite Water Management Index (CWMI) statement declared in 2018 talks about 21 Indian cities – including, Bengaluru, Chennai, Delhi and Hyderabad – running out of ground water by 2020, affecting 100 million people. The CWMI report says that within the ballpark, 70% of water is contaminated. India ranks 120th position of 122 countries in a global quality index, Er K.
