Financial Literacy Programme on “Benefits and implications of Mutual Funds (23.11.2022)

The Youth Red Cross of Trinity College for Women, Namakkal organized a financial literacy programme on 23rd November 2022. Mrs.M.Rajapadmavathi, Assistant Professor in Commerce, Trinity College for Women presented a programme in the title of “Benefits and implications of Mutual Funds”. In India, Mutual Fund investment is an organized financial system. Mutual funds have both positives and negatives compared to direct investing in individual securities. At present, it plays an important role in household finances. This investment should have great transparency, prudent accounting norms, low management fee, less transaction cost, etc., It is very attractive between suburban and rural areas, she said. 126 of YRC volunteers participated in that programme.

India is one of the most disaster prone countries in the world. Over 55% of land areas of India are vulnerable to earthquakes, 70% of the land under cultivation is prone to drought. 12% to floods and 8% to cyclones. A large amount is spent by our Government and aid agencies in relief and rehabilitation measures every year. However, there is no awareness among our people, including the student community. We need disaster management education for all school and College students, she specified. More or less 120 students took part.

02.12.2022 - Observation of National Pollution Day

On behalf of the Youth Red Cross of Trinity College for Women, Namakkal, National Pollution Day was observed on 02nd December 2022.

Dr. P. Pradeepa, Assistant Professor in Tamil of the College spoke on the topic of “The consequences of water Pollution”

(நீர் மாசுபாட்டினால் ஏற்படும் விளைவுகள்). India suffers from increased urbanization, raised population, unauthorized slums and absence of pipe planning. Most rivers, lakes, wells in India are polluted owing to industries, untreated sewage and solid wastes. In India, around 80% of water is severely polluted. Water is essential to our life; it plays a large role in sustaining communities, economies and societies. We must safeguard our water sources, she said.
