Chairman's Message: **(Er.K.NALLUSAMY)**

It gives me immense delight in welcoming you to Trinity College for Women (Arts and Science), Namakkal, Tamil Nadu state, India. Trinity College for women was established in the year 2000 on the felt need of the society. The growth of the institution in a short span of 24 years is encouraging.

Students from the lower strata of the society too have come forward to pursue higher education. Women education in India plays a very important role in the overall development of the country. The first former Prime Minister of India Pandit. Jawaharlal Nehru pointed out that if you educate a man, you educate an individual. However, if you educate a woman, you educate a whole family.

Women empowered means mother India empowered. For the upliftment of women, this educational institution was started. This College has evolved an exclusive educational program blending futuristic needs, development skills and growth that are instrumental in facing current day job requirements and also for the student professional benefits. With our state-of-the-art infrastructure, the student will be acclimatized to proficient work culture and emerge as well-rounded professionals that the industry desires to have.
